

WIDE RANGE OF HARD CAPSULES

Hard Empty Capsules to be swallowed are specially designed to contain any sort of extracts, vitamins, minerals and microencapsulated oils.

Hard capsules are the most common presentation in the nutraceutical and pharmaceutical industries, although the cosmetic industry is lately using it (nutricosmetics) in order to complement their range of products for "IN & OUT" concept.

Solcaps are mainly aimed at the nutraceutical and pharmaceutical industries. They come from manufacturers approved by Solchem, offering full guarantees of quality and safety, manufactured under GMP regulations and / or equivalent according to customer demand.

A comprehensive quality control guarantees fabrications according to European Pharmacopoeia standards customer specific requirements.
